RE: KAISER/ESTECH CITIZEN COMPLAINT AC NO. 428
SANGAMON COUNTY - CANTRALL

Dear Mr. Bridgewater:

I visited the Cantrall location in July and met with Rich Van Meter. The present location of the Cantrall Farmarket presents some unique problems. The property is bisected by a city alley easement that makes permanent controls at the site almost impossible (see attached plot plan).

Due to the property constraint problems at the current site, the decision has been made to pursue the relocation of the operation to a new site outside of town. The present site will be closed to production and distribution activities by December 1, 1987 in any case.

Yours very truly,

Spencer E. Hall
